

Communication

Date	15-07-2026
Team ID	
Project Name	Rising Waters
Maximum Marks	1 Mark

Communication Plan

Effective communication played a vital role in the successful development of the Flood Prediction System Using Machine Learning. Regular discussions, progress reviews, and issue resolution meetings ensured smooth coordination among team members and timely completion of project milestones.

Communication Schedule

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	Project Team Members	Discuss daily tasks, progress, and blockers
2	Progress Update	Weekly	Microsoft Teams / Google Meet	Team Members & Mentor	Review completed work and plan upcoming activities
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub / VS Code Live Share	Development Team	Resolve coding errors, debugging, and technical issues
4	Stakeholder Review	Bi-Weekly	Google Meet	Mentor, Guide & Team Members	Demonstrate project progress and receive feedback
5	Final Demo Rehearsal	Once	Google Meet / Local Presentation	Entire Project Team	Practice final presentation and project demonstration
6	Documentation Review	Weekly	Google Docs / GitHub	Team Members	Review reports, README, and project documentation

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty integrating the machine learning model with the Flask web application	Conducted team discussions, referred to Flask and Scikit-learn documentation, and successfully integrated the trained model.
2	Dataset preprocessing and prediction accuracy issues	Performed data cleaning, feature selection, model tuning, and validation to improve prediction accuracy.
3	Managing project files, documentation, and version control	Used GitHub for source code management and maintained regular communication to avoid merge conflicts and keep documentation updated.

Communication Summary

- **Primary Communication Tools:** Google Meet, WhatsApp, GitHub, VS Code
- **Project Tracking:** Weekly progress reviews and mentor feedback
- **Issue Management:** Real-time discussions and collaborative debugging
- **Documentation:** Shared through GitHub and Google Docs
- **Overall Communication Status:** Effective and Well Coordinated
